FOOTBALL APPAREL

COMPRESSION

COMPRESSION Clothing made of very elastic material squeezes muscles causing better oxygenation and blood circulation, thereby reducing exercise pain.

AIRWAY Used synthetic materials ensure free air flow, which provides the user with a feeling of comfort while practicing various physical activities.

QUICKDRY Synthetic materials are characterised by a short drying time, which ensures comfort during and after exercise.

REFLECTIVE ELEMENTS Reflective elements increase safety during active leisure.

THUMB HOLES Extended sleeves with thumb holes protect hands against cold.

MICROFLEECE LINED Microfleece lining increases the thermal comfort of the clothing.

MIX GRASS Football shoes that allows you to play effectively on both natural and artificial grass.

SYNTHETIC MATERIAL Shoes made of a synthetic material (PVC, PU, TPU, rubber) are easy to maintain, offer a large range of colours and designs.

TEXTILE This fabric is based on a network of natural and artificial fibers - footwear utilising it proves to be lighter and more breathable.

MESH Synthetic mesh provides excellent breathability of the footwear. Owing to this, the footwear is lighter and quickly discharges moisture to the outside of the upper.

RB RUBBER Sole made of RB rubber is slip resistant, flexible, and waterproof. It perfectly insulates the foot from the ground, which significantly increases thermal comfort on cold days.

TPR RUBBER Thermoplastic rubber is characterised by high strength and resistance to low temperatures. The sole made of this material is durable and wear resistant.

EVA FOAM EVA foam adapts perfectly to the foot. It is lightweight and flexible, thereby providing excellent cushioning while maintaining a small weight.

HI-POLY Breathable, lightweight and antibacterial foam. Perfect shock-resistance and comfort.

REMOVABLE INSOLE The possibility of removing the insole.

REFLECTIVE ELEMENTS Reflective elements increase safety during active leisure.
